

What is the correct way to **SELECT** a chair?

Some factors to consider when selecting a suitable chair for your needs:

**What environment you are working in.** Do you work in an office, factory, laboratory, or call-centre?

**What is the function or purpose of the chair?** Do you require a task, managerial, or reception chair?

**Is customisation required when choosing a chair?** e.g. adjustability, upholstery covering, or heavy-duty upgrades.

How will the chair affect my **HEALTH & WELLBEING?**

Some factors to consider regarding the affect a chair has on your health and wellbeing.

**The adjustability of the chair.** Does the chair have height, armrests, lumbar support, seat and backrest adjustability to suit the needs of the individual?

**Workstation design and setup.** Is the chair suitable to the particular workstation and can it be set up accordingly?

How **LONG** can I expect my chair to last?

Some factors to consider with regards to the longevity of a chair:

**How many hours per day will be spent sitting on the chair?** Will it be used for a standard work day, used occasionally or in a 24/7 environment?

**Will the chair be used by more than one individual?** e.g. hot-desking, 24/7 call-centre, boardroom, or in a Small Office or Home Office (SOHO)

**What maintenance is required to keep the chair in good condition?**

What **VALUE** can I expect when buying a chair?

Some factors to consider when determining what value to expect when buying a chair:

**What product guarantee does the chair come with?** What is the guarantee period for which the chair is covered for?

**Will ergonomic setup instructions be provided for the chair & workstation?**

**Will the chair be covered with after-sales service** e.g. installation & packaging removal.

**Does the chair come with a workstation setup?**
