

DELTA PU

Smart Ergonomic Workspace Solutions

Delta PU Operator Range

The Delta PU Operator Range of Laboratory and Industrial chairs has a classic functional design. Manufactured from easy to maintain black Integral Skin Polyurethane foam with a sculptured geometric detail. The ergonomically contoured back is easily adjusted to suit any user. The Delta draughting chair option is fitted with Karo's unique Nugen rigid footring.

Features:

- Black Integral Skin Polyurethane foam backrest and seat
- Ideal for rigorous industrial, laboratory, retail, medical and surgical environments.
- Internal steel support structure (not wood!) for superior strength
- Height adjustable seat and backrest
- Optional Karo's unique rigid footring with a durable chrome outer-ring and nylon support structure.
- Base options include, Black Nylon 5-star, Polished Aluminium 5-star or Black Round Nylon. The 5-star bases are fitted with either 60mm castors or glides.
- Various seat heights, viz. 440-570mm (no footring), 580-680mm (with footring), 650-750mm (with footring), 680-810mm (with footring), 750-880mm (with footring).
- 2 Year Warranty
