FUSE

Smart Ergonomic Workspace Solutions

Karo

Karo Manufacturing (Pty) Ltd | www.karo.co.za | info@karo.co.za

When Common Sense makes sense

The FUSE range uses a Hi-tech Dur-Lite mesh backrest which 'moulds' itself to the shape of your back and allows a constant airflow. This prevents heat entrapment commonly associated with upholstered backrests. The modern design of the Fuse complements any environment, and ergonomic features like a synchronous seat and back movement, adjustable lumbar support and multi-adjustable armrests, make this an affordable 5-Star rated ergonomic chair.

Features:

- 5 Year Warranty
- Weight Rating 120kg
- 5-Star Ergonomic Rating
- Quality certification by BIFMA
- Adjustable Upholstered headrest for the FUSE Executive Option
- Hi-tech Dur-Lite MESH backrest
- Adjustable lumbar support
- Upholstered seat with high-density automotive grade moulded foam
- Multi-adjustable armrests. The armrests are height adjustable, while the arm pads can slide forwards and backwards
- Synchronous mechanism with 4 locking positions
- Seat height adjustment (floor to top of seat). Min 41cm, Max 51cm

TRITAN

Smart Ergonomic Workspace Solutions

Karo

Karo Manufacturing (Pty) Ltd | www.karo.co.za | info@karo.co.za

Design Excellence…

The Tritan Task Office Chair is the result of applying design excellence with modern materials and technology. The Tritan has a unique backrest design. It is a combination of a flexible polypropylene membrane, located in a sturdy nylon frame. This backrest supports the user's back where it is required most. The advantage of having a flexible Polypropylene backrest is that the lumbar support is integral to the design. As a result no separate lumbar support is required. Also, Polypropylene is hygienic and can be washed and wiped clean. (Important in Corona times…!)

With ergonomic features such as height adjustable armrests for the perfect workstation setup and an ergonomically important synchronous mechanism, this innovative chair can easily be adjusted to suit any user.

Features:

- 5 Year Warranty
- Weight Rating 120kg
- 4-Star Ergonomic Rating
- Premium Polypropylene white backrest
- Upholstered seat with high-density automotive grade moulded foam
- Height adjustable armrests to suit any work situation
- Synchronous mechanism with 4 locking positions

STRENGTH Beyond All Expectations

HEATHROW

HEATHROW

Smart Ergonomic Workspace Solutions

Karo

Karo Manufacturing (Pty) Ltd | www.karo.co.za | info@karo.co.za

Strength Beyond All Expectations

The SABS certified HEATHROW 24/7 Heavy Duty Chair. Control rooms and call centres require a seating solution that exceeds all design standards associated with task chairs used in a conventional office environment. The Heathrow 24/7 heavy duty chair was specifically designed by Karo to meet the highly demanding 24 hour, 7 days a week work environment. Quite simply, all the components used in the Heathrow have been designed to out-perform and out-last any conventional task chair. With its classical style and 5-star ergonomic rating, the Heathrow provides strength and comfort beyond all expectations.

Features:

- 5 Year Warranty
- Weight Rating 180kg
- 5-Star Ergonomic Rating
- SABS Certification
- Fully upholstered back and seat
- Upholstered seat with automotive grade high-density moulded foam
- Seat depth adjustment from 47 to 52cm
- Choice of armrests, including height adjustable or fixed height Stratos arm which is fitted to the mechanism for optimum strength
- Heavy Duty Free-Float mechanism
- Seat height adjustment (floor to top of seat). Min 46cm, Max 56cm
- 700mm diameter polished aluminium 5 star base with 60mm castors.
- Heathrow Executive and Heathrow Task chair options available
- Supplied fully assembled
- Made in South Africa

ORTHOPAEDIC RANGE

WELLBACK 100

Smart Ergonomic Workspace Solutions

Karo

Karo Manufacturing (Pty) Ltd | www.karo.co.za | info@karo.co.za

Wellback 100 Orthopaedic Office Chair… medically sound!

Are you suffering from lower back pain or can't you get comfortable in any chair? If so, then the Wellback 100 Orthopaedic Office Chair is the answer! The Wellback 100 comes from the same family as the Wellback 200 and Wellback 300.

Recommended and endorsed by physiotherapists and ergonomists, the Wellback 100 is a true ORTHOPAEDIC OFFICE CHAIR. Unlike many other ergonomic office chairs, the Wellback 100's free-float mechanism allows the angle and height of the backrest, the seat angle, and the armrests to be independently adjusted and locked into position. This allows the Wellback 100 to be set up to suit even the most demanding of users.

What is an Orthopaedic Office Chair?

The Free-Float mechanism allows the movement of the seat and backrest to be controlled separately.

With recyclable components, the Wellback 100 confirms Karo's commitment to both modern office chair design and environmental sustainability.

Custom upholstery options

To match your home or office décor, the Wellback 100 orthopaedic office chair can be upholstered in a wide choice of fabrics. Please note that all customised products have an associated manufacturing lead time.

Draughting Conversion

For some applications, for example laboratories, the height of the work surface is much higher than a standard office desk. For these applications we offer our exclusive NUGEN draughting conversion. This unique Karo product was originally designed for heavy-duty use in casinos. The NUGEN footring is exceptionally rigid and has a durable chrome outer-ring and nylon support structure.
