

BUCKET RANGE

Smart Ergonomic Workspace Solutions

Simply Industrial

The BUCKET range is specially designed for factory environments: packaging operations, production lines, general warehousing and factory operations where workstation heights vary. The BUCKET SEAT range is the ideal choice where function, strength, OH&S and hygiene are prerequisites. The many configuration options allow you to select the ideal chair for the task.

Features:

- Polypropylene seat and backrest manufactured to stadium seating specifications.
- For use in rigorous industrial/production environments with machine operators working consecutive shifts on a 24/7 basis.
- Completely washable.
- Locally manufactured to specifications.
- 2 Year Warranty.
